

Japanese Knotweed Ltd specialise in the control and eradication of Japanese knotweed and other invasive species, throughout the UK. We mitigate and solve the problems invasive weeds cause for property developers, construction companies, infrastructure & engineering companies, corporate clients, local authorities, housing associations and private homeowners. We pride ourselves on offering the best service in the industry.

Our people are brilliant – they are self-motivated and dedicated. They are reliable and conscientious, and all share the same vision. They are energized by delivering outstanding service to our customers with transparency and accountability, and this is what makes us a market leader.

We aspire to employ the best people to work for us, people who can take ownership of their roles and who enjoy doing what they do best, for a friendly and caring company. You will be a well organised and problem-solving person who is motivated by delivering high standards and who takes pride in a job well done.

The Role

We are recruiting for a **Japanese Knotweed Technician**, working predominantly in the Greater London area. The role is a **permanent contract** returning **each year from April to November**.

Skills and Experience Required

Experienced herbicide/chemical treatment, Japanese knotweed and other invasive weeds.

An excellent focus on customer service.

Adaptable and flexible approach to work and a drive to provide a quality output.

Must hold NPTC card, category PA1 & PA6 and herbicide spraying certificate.

PCA Technician qualification is preferable but not essential.

Good IT skills.

A full driving licence.

General Information

On contract from April to November, working Mon-Fri during our busy growing season. With the intention of a repeat year-on-year seasonal contract April – November.

This role needs a great deal of focus on the client and the accuracy of the survey and site report to give our customers the best solution.

Applying herbicide using a knapsack sprayer and an injection gun to Japanese knotweed and other invasive weeds at residential properties, commercial sites and some open areas of land.

Works van and equipment provided.

Following Standard Operating Procedures.

Recording work carried out at each site using a web-based app on a tablet/mobile phone.

Based from your home address, ideally north or east London you will be travelling and working on pre-booked activities and sites, visiting multiple locations in the day and occasionally staying away.

You will be provided with a works van, fuel card, a mobile phone and tablet. All IT equipment is supplied to enable you to communicate remotely onsite and deliver the information back quickly.

Occasionally working with others to carry out works on larger sites that may involve specific H&S protocols.

Salary and Benefits

£3,120 per month.

An attractive Pension Scheme.

Medical cash back scheme.

Holiday plus bank holidays in the contract period.

Company events, team breakfasts.
